Contents Volume 11, 1997

Special Issue: Proceedings of the Canada–Japan SARES Project on First-Year Sea Ice.

Edited by J.-C. Therriault, L. Devine and M. Fukuchi

The Canada–Japan SARES project on the first-year ice of Saroma-ko Lagoon (northern Hokkaido, Japan) and Resolute Passage (Canadian High Arctic)
M. Fukuchi, L. Legendre and T. Hoshiai 1
Oceanic heat fluxes under thin sea ice in Saroma-ko Lagoon, Hokkaido, Japan
K. Shirasawa, R.G. Ingram and E.J.-J. Hudier 9
Currents and turbulent fluxes under the first-year sea ice in Resolute Passage, Northwest Territories, Canada
K. Shirasawa and R.G. Ingram. 21
Tidally forced under-ice Ekman layers observed by an acoustic Doppler current profiler
R.F. Marsden, R.G. Ingram, F. Milinazzo, A.G. Buckley and M.W. Stacey 33
Effect of silicate enrichment on ice algae at low salinity in Saroma-ko Lagoon, Hokkaido, Japan
S. Taguchi, R.E.H. Smith and K. Shirasawa 45
Effect of nitrogen and silicate enrichment on photosynthate allocation by ice algae from Resolute Passage, Canadian Arctic
S. Taguchi and R.E.H. Smith 53
The influence of major inorganic nutrients on the growth and physiology of high arctic ice algae
R.E.H. Smith, M. Gosselin and S. Taguchi 63
DOC and its relationship to algae in bottom ice communities
R.E.H. Smith, M. Gosselin, S. Kudoh, B. Robineau and S. Taguchi 71
Horizontal heterogeneity of microalgal biomass in the first-year sea ice of Saroma-ko Lagoon (Hokkaido, Japan)
B. Robineau, L. Legendre, M. Kishino and S. Kudoh. 81
Photosynthetic acclimation and the estimation of temperate ice algal primary production in Saroma-ko Lagoon, Japan
S. Kudoh, B. Robineau, Y. Suzuki, Y. Fujiyoshi and M. Takahashi 93
Photosynthetic and respiratory characteristics of an Arctic ice algal community living in low light and low temperature conditions
Y. Suzuki, S. Kudoh and M. Takahashi 111
Temporal variation of chlorophyll-like pigment composition in sinking particles during the ice-covered season in Saroma-ko Lagoon
H. Sakoh, O. Matsuda, C. Michel, L. Legendre, N. Rajendran and T. Yamamoto 123
Coexistence of microalgal sedimentation and water column recycling in a seasonally ice-covered ecosystem (Saroma-ko Lagoon, Sea of Okhotsk, Japan)
C. Michel, L. Legendre and S. Taguchi 133
Ice-brine and planktonic microheterotrophs from Saroma-ko Lagoon, Hokkaido (Japan): quantitative importance and trophodynamics
T. Sime-Ngando, S.K. Juniper and S. Demers. 149
Changes in sea-ice phagotrophic microprotists (20–200 μm) during the spring algal bloom, Canadian Arctic Archipelago
T. Sime-Ngando, M. Gosselin, S.K. Juniper and M. Levasseur. 163
Carbon flows through the microbial food web of first-year ice in Resolute Passage (Canadian High Arctic)
A.F. Vézina, S. Demers, I. Laurion, T. Sime-Ngando, S.K. Juniper and L. Devine 173
Diel vertical migration and feeding rhythm of copepods under sea ice at Saroma-ko Lagoon
H. Saito and H. Hattori. 191
Diel changes in vertical distribution and feeding activity of copepods in ice-covered Resolute Passage, Canadian Arctic, in spring 1992
H. Hattori and H. Saito. 205

Transport of marine fish larvae to Saroma-ko Lagoon (Hokkaido, Japan) in relation to the availability of zooplankton prey under the winter ice cover
M. Fortier and L. Fortier 221
